Soon!

Emerging Energy
Technology Series

Charlotte, Columbia & Raleigh
3 sessions/year for 3 years

September 26, 2016

- The Innovation and Capital Task Force is Chaired by Larry Ostema and Lee Mazzocchi of Duke Energy
- This Task Force does not have regular meetings. Instead we produce programs where members interact and engage in activities
- The Energy Technology Series is being produced quarterly in 2016
 - Provides a “deep dive” into a significant energy technology supported by a Carolina company
 - Produced in collaboration with UNCC EPIC
 - 90 minute public presentation 4:30 – 6:00 pm
 - 30 minute reception
 - 6:30 pm invitation-only dinner for our Titanium, Platinum, Gold members and guests.
 - during the past year has featured:
 - Lime Energy and OPower;
 - NuScale Power;
 - SAS; and
 - Cogentrix
- The Energy Innovation & Capital Network was launched in 2016 featuring a member-only website containing presentations from meetings, member contact information, etc. and quarterly meetings exploring “the Business of Clean Power”:
 - 4/13 – “the Intelligence Grid” hosted by Siemens Energy in Charlotte
 - 6/23 – “North Carolina Clean Energy Future” hosted by Duke Energy in Raleigh
 - December – “Clean Power Generation” at the McGuire Nuclear Station

- We will soon launch the Energy Risk Management Seminar Series
 - Half day seminars in Charlotte, Columbia and Raleigh
 - Three times each year for three years
 - Examining legal, insurance, accounting and capital techniques to management risk
 - Examining risk management at nine stages of energy venture or project evolution

- Any E4 Carolinas member with an interest in energy innovation and capital may contact me, Lee or the appropriate E4 Carolinas staff member or visit our website to learn about our upcoming events or suggest a topic.
